

## ORDINANCE NO. 2192

### AN ORDINANCE AMENDING THE BEND CODE BY AMENDING SECTION 6.20.000 METHOD OF PARKING

#### Findings:

- A. Section 6.20.000(3) of the Bend Code has been challenged in Municipal Court on vagueness regarding its prohibition against reverse parking.
- B. To eliminate confusion, this ordinance clarifies what instances of reverse parking are prohibited.

Based on these findings, the City of Bend ordains as follows:

Section 1. Bend Code Section is revised as to read as follows:

#### **6.20.000 Method of Parking**

(1) Except as authorized by subsection 2, where parking spaces are marked on a street or City owned parking facility, no person shall stand or park a vehicle other than within a single marked space, both width and length, unless authorized by the City.

(2) In areas marked for parallel parking, oversized vehicles may use up to two parking spaces as needed for vehicle length.

(3) No vehicle shall park in an angled parking stall in a manner that orients the front of the vehicle so that it is angled towards the flow of oncoming traffic in the adjacent vehicle travel lane. For purposes of this section, "angled parking stall" does not include a parking stall that is at a 90 degree angle to the curb.

(4) Vehicles parked parallel shall be parked in the direction of the traffic flow in the adjacent traffic lane.

Section 2. All other provisions of the Bend Code remain unchanged and in effect.
