

Bend Metropolitan Planning Organization
 Policy Board Meeting
 July 22, 2016

Issue Summary

Consideration of Amending the Bend MPO 2016-17 Unified Planning Work Program

Issue:

Amendments to the UPWP require approval of the Bend MPO Policy Board.

Recommended Language for Motion:

I move to authorize the approval of the UPWP amendments and Resolution 2016-004 as proposed

Summary of Changes in the 2016-17 UPWP (pages 20 and 24):

TASK 3: Long Range Planning

FTA 5303 Funding	\$65,595
STP Funding	69,539
In-kind Local Match	7,168
Total Task 3	\$142,302
Percent of Total Budget	26%

Subtask D. Public Transportation Planning: This subtask includes several public transportation work items.

- Updated Task 7/2016: The adopted UPWP (and underlying budget) only assumes a very small amount of time and funding for this work. ODOT has issued a grant to administer additional funding (about \$50,000) to fully develop the TBEST tool for use in the Bend MPO area and possibly the greater Central Oregon area. The vast majority of this new funding will be subcontracted to the TBEST software developer and Cascades East Transit.⁷

Other Agencies Involved: Bend MPO and City of Bend
