

Stormwater Public Advisory Group

Meeting Summary

Wednesday, July 21, 2021

8:00 AM –10:00 AM

Special Newport Corridor Project Field Trip

Meet at Drake Park Stage (777 NW Riverside Blvd, Bend)

CITY OF BEND

Key Items Discussed

This was an optional meeting involving a field trip to the Newport Corridor project along the Deschutes River.

- **Monitoring Stormwater on the Deschutes River.** Attendees received an overview of stormwater monitoring devices for the City's Underground Injection Control Monitoring; then visited a sonde located in the river from the pedestrian bridge connecting Drake and Harmon Parks and Jeff Buystedt shared more about the City's ambient water quality monitoring program. Jeff also shared efforts the city has taken for flow monitoring of the stormwater system for assisting the Newport Corridor project.
- **Newport Corridor Project – Nashville Area Stormwater Facilities.** Attendees received an overview of the Newport Corridor project from Project Manager Drew Wells, Brittany Barker, and representatives from the contractor crew. Attendees learned about the pipe, visiting the installation of new bioretention planters and manufactured treatment control devices, and discussing source controls and tree protection measures.

Key Decisions Made/ Key Action Items

- Wendy will send out a doodle poll to find an optimal time for a fall meeting, to be held in October.
