- Sensor-based controllers must have accompanying device(s) installed (Device purchase may be separate).
- Wi-Fi enabled controllers must have the manufacture’s app enabled (May include subscription fees).
- The controller (Wi-Fi enabled or sensor-based) must be operating with the smart program active.

*Mangers of larger irrigated areas (1+ acres, E.G. golf courses, athletic fields, etc.) may contact the City of Bend’s Water Conservation Program at [conservation@bendoregon.gov](mailto:conservation@bendoregon.gov) to determine other industrial-grade smart irrigation controllers eligible for financial assistance through the Large Landscape Program. Consultation required. Please provide the make and model of the controller in consideration prior to purchase.*
