Project Scoring Criteria

Applications are first screened for <u>STBG program eligibility</u> by MPO staff, and an initial project scoring is applied based on how well project application information appears to support established criteria. The Technical Advisory Committee (TAC) will finalize the project scoring through a consensus process and use it to *inform* their funding recommendation to the MPO Policy Board. Results of the criteria-based ranking are simply a tool for the TAC to use in consideration with other factors when developing their project funding recommendation. The Policy Board makes the final funding determination.

1. Safe	ty (if applicable)	max. 6 points
Criterion:	Project addresses a known safety concern, or enhances safety.	
Describe how	the project supports the criterion. (Include measurable objectives, if applicable):	

2. Mul	tiple Users (if applicable)	max. 6 points
Criterion:	Project increases system capacity, quality, and/or connectivity for multiple users (drivers, pedestrians, transit users).	cyclists,
Describe how	the project supports the criterion. (Include measurable objectives, if applicable):	

3. Syst	em Efficiency (if applicable)	max. 6 points
Criterion:	Project increases system efficiency (without increasing capacity or at lower cost).	
Describe how	the project supports the criterion. (Include measurable objectives, if applicable):	

4. Those That Do Not Drive (if applicable)

Criterion:	Project improves the transportation system or provides transportation-related benefit(s) to those that do not drive.
Describe hov	v the project supports the criterion. (Include measurable objectives, if applicable):
5. VM	T and/or Emissions Reduction (if applicable) max. 6 points
Criterion:	Project reduces VMT and/or emissions.
Describe hov	v the project supports the criterion. (Include measurable objectives, if applicable):
	the second second
	ity (if applicable) max. 6 points
6. Equ	Project advances equity in transportation / provides benefit to transportation disadvantaged populations.
Criterion:	Project advances equity in transportation / provides benefit to transportation disadvantaged
