About Commissioner Rudder: She is at her 40th year anniversary of a multiple car accident that caused her disability, making forty years of advocating for herself and learning how to advocate for others.

She noticed a lack of services for transportation, health care, and housing. Then found a huge population that are houseless or that are isolated in their homes because a lack of access to needed services.

Commissioner Rudder raised personal services needed to the Governor Office, they directed her to the Oregon Disabilities Commission where she later spoke during public comment about the lack of services. She was met with immediate response about different services:

- DHS
- Ombudsman Program through OHP, who immediately addressed her concerns. Then she was asked to join the commission in May.
- Commissioner Rudder is on the Central Oregon Healthcare Council Advisory Committee and on the La Pine Community Healthcare Committee.
- Wants to secure and find needed services to meet the needs of all people with disabilities in the southern region of Central Oregon. To try to eliminate that isolation and connect people with disabilities to services. With engagement in community activities and support independence and self-sufficiency.
- We are lack in accessible: transportation, affordable housing, healthcare, better food choices, and access to social and community involvement.

The ODC is to secure economic, social, legal, and political justice for individuals with disabilities through systems change. To carry out this mission, the ODC:
