- Continued conversations about prioritizing transportation projects.
- Fees for incentivizing electrification and disincentivizing gas. A vast majority of single-family homes built in the last five years were built.
- We will be talking about Parking districts and about transportation funding based on what happens with Legislature.
- They will also be talking about the temporary safe-stay area at Juniper Ridge.

## 4. Roundtable of HREC Commissioners:

HREC Liaison Portela talked about the Sponsorship Program and extended an invitation to Assistant City Manager Betteridge to give a presentation at the next meeting on the extent of the program itself. The program supports community events, programs and services aligning with key city initiatives and council goals. The process for folks asking for funding typically takes 7 to 10 days to finalize an agreement.

The following conversation was about **concerns that the HREC brought up about the sponsorship policy as it related to funding for Juneteenth.** (17:02 to 40:16)

Chair Ventura's statement read aloud: For the record as Chair of this commission, with a brief breakdown of my perspective from this situation.

HREC Leadership met with Mayor Pro Tem sharing our concerns with not having been informed of the situations at hand directly from Council, citing the contextual nuances relating to social identity that the members of this commission could speak to and shed light upon (well within the bounds of our charter) while the Council reached their decisions and executed the policy. We thank Mayor Pro Tem Perkins for meeting, and noting to Council that "HREC exists to bring up issues and systems that may make us uncomfortable or make us defensive here on the dais ... and it's [your] job to listen and to absorb that feedback even if [you] don't agree." and HREC can play a role in providing that additional context in your decision making. And shoutout to Councilor Franzosa for flagging our involvement in the last city council as well. I appreciate that we will continue to work on our shared communication and collaboration in the future and that was a takeaway from our meeting.

We have a group of knowledgeable and passionate commissioners with a wide breadth of lived and learned experiences represented and we aim to activate when the community is impacted. We found this to be a missed opportunity for dialogue and learning, not to scrutinize the policy or decision-making. Furthermore, we are consistently working to improve how we best advise the council and as a

group hoped to address the conversation within a reasonable timeframe and with other agenda items in mind. We stand with the decision to hold a meeting and would appreciate being granted that agency for future requests with trust in our interest in fulfilling our charter in honor of the feedback of our community members, and our continued commitment to our partnership with Council as well. Lastly, we openly invite community members to connect with us directly as well if we can be of support as you navigate a situation as it relates to human rights and equity.

Each commissioner was given time to share their thoughts about this situation.
