

# Transportation G.O. Bond Program

## 18th Street / Empire Avenue Roundabout

The 18<sup>th</sup> St./Empire Ave. intersection is being upgraded from a stop sign control to a new, single lane roundabout. The project includes the roundabout, sidewalks, landscaping strips, storm water facilities, street lights, signs and striping to current city standards. Upon completion in Fall 2012, the new facility will improve congestion and safety for all modes of traffic. The estimated budget for this project is \$3 million. For the latest information visit [www.bendoregon.gov/gobond](http://www.bendoregon.gov/gobond).

Any artwork planned for the roundabout will be handled in a separate process led by Art in Public Places, a local non-profit organization dedicated to beautifying the City of Bend with juried works of public art and sculpture. See [www.artinpublicplaces.org](http://www.artinpublicplaces.org) for more information.
