---

### 1. Roll Call

- Sara Anselment
- Sue Gordhammer
- Kathy Austin
- Kavi Chokshi
- Gina Franzosa
- Manoj Alipuria
- Brett Huet
- Cory Bittner
- Morgan Greenwood
- Karon Johnson
- Corie Harlan
- Geoff Harris
- Erik Huffman
- Chris Madison
- Dan Jenkins
- Jim Roberts
- Councilor Megan Perkins

### 2. Declaration of Actual or Potential Conflicts

### 3. Discussion on Minimum/Maximum Lot Sizes to Consider for Mitigation Options

#### 4. Next Steps:

**Hold last TRUAC meeting (date TBD) to vote on the following recommendations to the Planning Commission and City Council:**

**A. Size of Regulated Trees to be Inventoried and Mapped:** 6" or larger (Deciduous and Coniferous)

**B. Size of Priority Trees:** 20" or larger (Deciduous and Coniferous)

**C. Minimum/Maximum Lot Sizes to Consider for Mitigation Options.**

**D. Preservation Options:**

**Option 1. Percent of Priority Trees to be Preserved:** 20% of Priority Trees would need to be preserved.

**Option 2. Percent of Regulation Trees to be Preserved:** 25% of the total diameter at breast height (DBH) of Regulated Trees would need to be preserved.

**Option 3. On-Site Tree Replacement Ratio.** Mitigation trees are required on-site to make up for anything less than the 25% DBH required in Option 2.

*For example, if there is 600 inches of DBH on site and only 20% (120") is being preserved, then 30 inches of DBH is the required on-site mitigation. The mitigation required to meet the standard is based on the largest tree or trees proposed for removal that equal or exceed the required DBH.*

The following is the tree replacement ratios:

- 6" to 9.9" DBH: One Tree
- 10" to 19.9" DBH: Two Trees
- 20" or larger: Four Trees

**Option 4: Payment In-Lieu of Tree Preservation.** Staff will establish a program and payment amount.
