**Subject:** public comment - midtown connectivity

Hello,

I'm writing to urge you to keep all three of the proposed midtown bicycle and pedestrian connectivity projects (Greenwood underpass, Franklin underpass, and a new Hawthorne bridge) on the near term list. Bend residents want these improvements, and we have already waited too long for better connectivity through the center of town. Please don't put these crucial projects on the back burner.

Best,  
Karen
