When visiting a supplier in Redmond my company put me in the Holiday Inn Express on Grandview Dr near State Highway 97.
You can imagine what I'm going to request...
Put a light in there so hotel guests can turn left to go to Redmond.
What I was forced to do was get into southbound traffic and turn left before turning around to come back out to 97 to go to Redmond.
I use to visit Bend when I lived in the Willamette valley and my wife had a sister here.
My observation is that Bend's Traffic Dept and the state since the '80s keeps thinking way to small for where Bend is heading. Think bigger please.
