Subject: Support Investments in Walking, Biking and Transit

Hello,

- I support investments in walking, biking, and transit, and I'm happy to see that these modes seem to be an emerging priority.
- I'd like to see all bike/pedestrian Key Route investments moved into the near-term priorities list.
- I want all three midtown bike/pedestrian connectivity projects (Greenwood, Hawthorne, and Franklin) to remain near-term priorities.
- I'm also very supportive of electric transit.

Thank you,

Laurie Swenson
