Subject: Re: support for bike and pedestrian infrastructure on Franklin

Thank you Karen.

As a cyclist, I'd like to add that on Wilson the biggest safety - aside from the 2nd street crossing (as in, cars trying to cross Wilson at 2nd st) are the drive thru's at Ductch bros and Arby's.

Im hopeful that alternative restaurant access could be configured - I can't tell you how many times I've had near misses, due to these drive thru's (and the lack of a bike lane in the block immediately east and west of 3rd, on Wilson)

Thank you,
Tamara
