**Subject:** Possible bond measure

I am writing with a concern about traffic in Bend. I live on the east side of Bend and often travel 27th. St. south of Hwy 20 to Ferguson Rd.. In my estimation that section is already at capacity, with traffic often backed up from Bear Creek to Reed Market. With the announcement that the State will sell the Stephens Rd. tract we will see much increased demand on 27th. At very least we will need an extension of the four lanes from Bear Creek to Ferguson with additions of a consistent sidewalk and bike lanes. Hopefully your committee has already considered and addressed this. If not, it would be very hard to support the bond, and this omission should be publicized.

Respectfully,

Bob Caine
