Subject: Re: US 97 Parkway Plan Survey

Good Morning! Getting back to the Portland Ave. situation! Being an on and off resident on Portland Ave. for twenty years I have seen it all. I thought the short lived solar speed lights were a positive move (where are they?) We need a permanent install. It's The COCC speedway and has to be addressed. More lanes is a wrong direction. The bike lane helps in summer. The icy road helps in winter. Thanks ,have a fabulous holiday.
