

City of Bend Traffic Volume Report

BEND MPO
Metropolitan Planning Organization

CITY OF BEND

The Bend traffic reports are derived from permanent count stations installed by the City of Bend and Bend Metropolitan Planning Organization. The stations collect vehicle, bike and pedestrian activity. For more on this program, visit www.bendmpo.org

Traffic volume data through 8/3/2021

Colorado Avenue Bridge

The past 30 days shows a daily average of 15,928 vehicles. 2021 vehicle daily averages are 5.7% decrease compared to the same week in 2020 during COVID-19 restrictions. This current daily average is still lower than 2019 - 2017 daily averages during June of 16,800-18,000 daily vehicles.

Franklin Avenue Undercrossing

The past 30 days shows a daily average of 14,645. 2021 vehicle daily averages are 18.5% increase compared to the same week in 2020. This week's average is above the daily averages of 13,000 in June of 2019 and 2017.

Galveston Avenue Bridge

The past 30 day average is not available due to outages. This last week, average daily vehicles showed 17,444. No full data for 2020 in July to compare. This average is above the daily averages of 13,367 in June of 2019, this week's vehicle traffic show a 38.3% increase from 2020. This is likely from the closures on Newport Ave.

Newport Avenue Bridge

The past 30 days shows an average of 6,337 daily vehicles. 2021 vehicle daily averages are 51.9% lower than the same week in 2020. This corridor has detours and closures. For more on this project visit the project page: <https://www.bendoregon.gov/city-projects/infrastructure-projects/newport-pipe-replacement>

Portland Avenue Bridge

Last week, we saw 14,205 average daily vehicles, the past 30 days shows a daily average of 16,793. 2021 vehicle daily, averages are 33.7% increase compared to the same week in 2020. This increase is likely from the closures on Newport Ave. This week's average is above the historical daily averages of 11,000 – 12,000 for June 2019 and 2018.

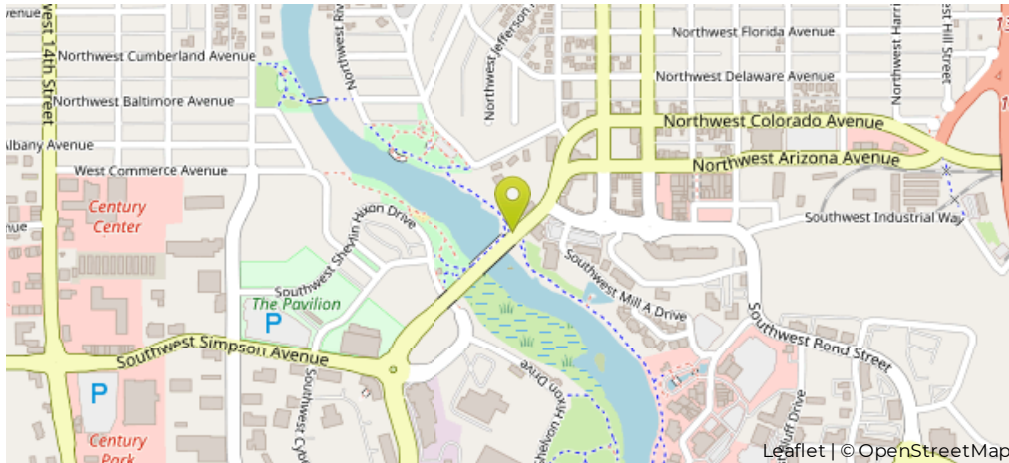

ODOT US97 Bend Parkway

See the full ODOT report at <https://www.oregon.gov/odot/Data/Pages/Traffic-Counting.aspx>
This statewide traffic volume report is updated monthly. The latest report was published on 7/9/2021. The traffic volume data in June 2021 showed weekdays in the Bend/Redmond section of US-97 saw weekday traffic volumes nearly at 2019 levels with volumes ranging from 3-5% below volumes seen in 2019. The last week of data from June 28-July 4th show a 1% increase from 2019 volumes. The section of US-97 outside of the Bend/Redmond area saw weekday volumes 5-8% greater than 2019 levels. The most recent week (6/28-7/4/21) saw a decrease to 7% below 2019 levels. This unique decrease is likely related to the closure of US-97 near the Oregon border due to wildfires in northern California
