

SDC Schedule - Exhibit A

Units	Water \$/Unit	Sewer \$/Unit	Transportation \$/Unit & Phase-in rates where applicable; Phase-in schedule adopted 7-1-24, Res. No. 3377			Total
			Year 2	Year 3	Year 4	Based on fees starting July 1, 2025
Categories			Starting 7/1/25	Starting 7/1/26	Starting 7/1/27	
Additional irrigation SDCs apply for irrigation-only meters (all uses) or when irrigated area >1/4 acre (for all nonresidential uses). Eligible development types in the Urban Rate Area get 30% reduction in applicable transportation SDC. See criteria in Urban Rate definition in Exhibit B. See Urban Rate Area map in Exhibit C. Phase-in rates provided for planning purposes only; Inflation adjustment may still apply, subject to Council approval each year.						
Residential Categories						
Single Unit & Middle Housing						
Average		\$7,346	\$6,025	\$9,643		\$23,014

na = not applicable

NOTE: See accompanying category definitions in Exhibit B. See individual SDC methodology reports for additional clarifying information. Individual SDC Reports have different footnotes due to variations by system.

^a"Wet" industries required to prepare individual water and sewer analysis.

^bMedical-Dental-Vet offices w/in hospital campus pay Hospital transportation rate. Transportation rate for Medical-Dental-Vet offices in the Medical Overlay District is reduced by 24% (based on ITE 720 w/in or near hospital campus rate).

^cIf stored products require water for growing, cleaning, etc., Stand-Alone Retail/Services rates for water and sewer apply.

^dIndividual category rate applies even if part of an Integrated Retail/Services development. For Quick Service Restaurants, only those with a drive-thru will be charged individual category rates, even if included in an integrated development.

Irrigation SDC Schedule (Stand-Alone or when irrigated area >1/4 acre)

Meter Size (Inches)	Units	Water \$/Unit
1	Meter	\$17,954
1.5	Meter	\$40,170
2	Meter	\$66,241
3 and Larger	GPD water use	\$10.37

"Wet" Industrial User SDC Schedule

	Units	Water \$/Unit	Sewer \$/Unit
Industrial/Manufacturing	GPD water use	\$10.37	\$30.13

Transportation SDC - Cost Per Trip

\$10,251

SDC Category Definitions and Examples – Exhibit B

Table B-1. SDC Category Definitions and Examples

Category ^a	Definition/Example Development Types ^a
Residential Categories	
Single Unit & Middle Housing	Single unit housing with up to 4 units on one lot or parcel. Includes middle housing (duplexes, triplexes, quadplexes, cottage developments up to 4 units on one lot or parcel, and townhouses) and up to three manufactured homes on a single lot. Units can be attached or detached. Applies to residential units in a mixed-use development with up to 4 units.
Multi-Unit Housing	Includes multi-unit housing that is part of a mixed-use development.
Housing >4 units	Five or more dwellings on an individual lot or parcel (e.g., multi-plexes, apartments, condominiums, etc.). Units can be attached or detached.
Manufactured Dwelling Park	Manufactured dwelling park as defined in Bend Development Code (four or more pads for manufactured dwellings located on a lot, tract, or parcel of land under the same ownership). Manufactured dwelling means a residential trailer, mobile home, or manufactured home; see BDC definition.
Micro-Units/Single Occupancy	Generally, consists of one room used for living and sleeping purposes and includes permanent provisions for sanitation but does not include a kitchen. See BDC definitions.
Dormitories	On-campus housing for students.
Sr. Housing	Age-restricted (55+) attached housing without on-site care facilities.
Other Housing	
Continuing Care Facility	Nursing home, residential care facility, adult family housing, hospice care, assisted living, rest home, convalescent home, sobering center with overnight beds, congregate or continuing care facility.
Accessory Dwelling Unit	A small dwelling unit on a lot or parcel with a single-unit dwelling unit as a primary use.

Category ^a	Definition/Example Development Types ^a
Nonresidential Category	
Standard Categories	
Industrial	May include a mix of manufacturing, service, office, research, lab, and warehouse functions. May also include specialty trade contractors and machine and auto repair that are part of industrial buildings. Many produce goods by assembling other products, such as assembly of computers or other electronics. May be used for research and development projects that are a combination office and lab, where lab is the predominant (>50%) square footage of the combined development area. For purpose of water and sewer SDCs, excludes 'Wet' Industries that use water in the production process (see separate SDC category and definition).
"Wet" Industrial	Users in this category use water during the production process for either creating their products or cooling equipment. Industrial water may also be used for fabricating, processing, washing, diluting, cooling, or transporting a product. Water is also used by industries producing chemicals, food, and beverage products. Breweries, distilleries, and data centers are examples of these types of customers. Water and sewer use and applicable SDC shall be determined through a water and sewer analysis, as defined in the City Code.
Warehouse / Storage / Dist. Center	Warehouse, storage, and high cube fulfillment centers. Self or mini storage. Stand-Alone Retail/Services water and sewer rates apply if stored products require water for growing, cleaning, etc.
Movie Theater	Audience seating, with one or more screens, and a lobby and refreshment stand.
Indoor Fitness & Recreation	Public or privately owned fitness or recreation facilities that may include indoor/outdoor pools, saunas, gyms, classes, courts or specialized passive or active recreation facilities. Features space for exercise, sports, and recreation, as well as a broader range of services such as eating/drinking, preschools/day care and meeting rooms.
Church, Religious Organization	Worship facilities may include assembly hall or sanctuary, meeting rooms, classrooms, and occasionally dining facilities.
Hospital	Buildings on a shared campus with medical, surgical diagnosis, treatment, imaging, labs, and other services, and provide overnight beds for persons under the care of doctors and nurses.
Medical - Dental - Vet Office	A facility that provides diagnoses and outpatient care on a routine basis but does not provide prolonged in-house medical/surgical care. May be operated by either a single private physician/dentist/practitioner or a group. Includes vet offices as well as chiropractic and other treatment modalities, mental health professionals, etc. May be connected to other uses (except hospitals) or stand-alone. If located within a hospital campus, the Hospital Rate for transportation applies. If located in the Medical Overlay District, as defined in BDC Chapter 2.7 Article IV, Medical Overlay District SDC is reduced by 24% based on ITE 720 w/in or near a hospital campus for transportation.

Category ^a	Definition/Example Development Types ^a
General Office	An administrative office building houses one or more tenants and is the location where affairs of a business, commercial or industrial organization, professional person or firm are conducted. The building or buildings may be limited to one tenant, either the owner or lessee, or contain a mixture of tenants including professional services, insurance companies, investment brokers, and company headquarters. May include onsite daycare or food service facilities provided for tenants. Also includes libraries and research & development projects that may be a combination of office and research lab facilities, when the lab is secondary use (i.e., <50% of building square feet).
Medical Overlay District	The Medical Overlay District as defined in BDC Chapter 2.7 Article IV. Transportation SDCs in this District charged based on ITE 720 w/in or near hospital campus rate.
Medical Dental Office w/in Hospital Campus	Hospital transportation rate for Medical-Dental office located within a hospital campus.
Stand-Alone Retail/Services with >50% Floor Area Warehouse/Storage	Stand-Alone retail uses with floor area greater than 50% for warehouse/storage. If stored products require water for growing, cleaning, etc., Stand-Alone Retail/Services rates for water and sewer apply.
Stand-Alone Retail/Services	Includes general merchandise and services categories not otherwise listed in the SDC schedule.
Integrated Retail/Services	An integrated retail/services development is typically a shopping center that is planned or developed as a unit with features such as shared parking or access. Includes single developments with multiple storefronts or office spaces, strip malls, mixed use buildings with residential and commercial spaces, etc. These developments typically include retail stores, food and beverage, entertainment facilities, service providers, and common areas. Water and sewer are assessed at the Integrated Retail/Services rate. Transportation is assessed at the Retail/Services rate and is based on the total square footage of all buildings in the development. The following uses will be charged transportation, water, and sewer based on their individual category rates even if included in an integrated development: Hotels, Parks, Super Stores, Supermarkets, Quick-Service Restaurants w/drive-thru, Car Washes, Gas Sales/Service Stations, Industrial, 'Wet' Industrial, Warehouse/Storage/Distribution Centers, and Vehicle Sales. For a building that has mixed commercial and residential uses, the integrated rate applies to commercial square footage and the applicable residential rate, based on number of units, applies to residential space.
Super Store (with or w/out membership & discount)	Store includes a variety of services or departments including a full-service grocery department; has centralized cashiers and may have garden center or pharmacy. May or may not be part of shopping center or require membership. Examples include Costco, Walmart, Fred Meyer, etc. Additional retail pads within the development will be charged at the Integrated Retail/Services rate. When a development includes a super store and a gas station and/or service station, the super store and gas station/service station will be charged as separate uses, with the latter charged the gas sales/service station rate.
Supermarket	A store that sells an assortment of food, beverage, household products and other related items. Some include limited banks, bakeries, dry cleaning, and floral services. This category also includes discount grocery stores, but not "super" stores. When a development includes a supermarket and a gas station and/or service station, the supermarket and gas station/service station will be charged as separate uses, with the latter charged the gas sales/service station rate.

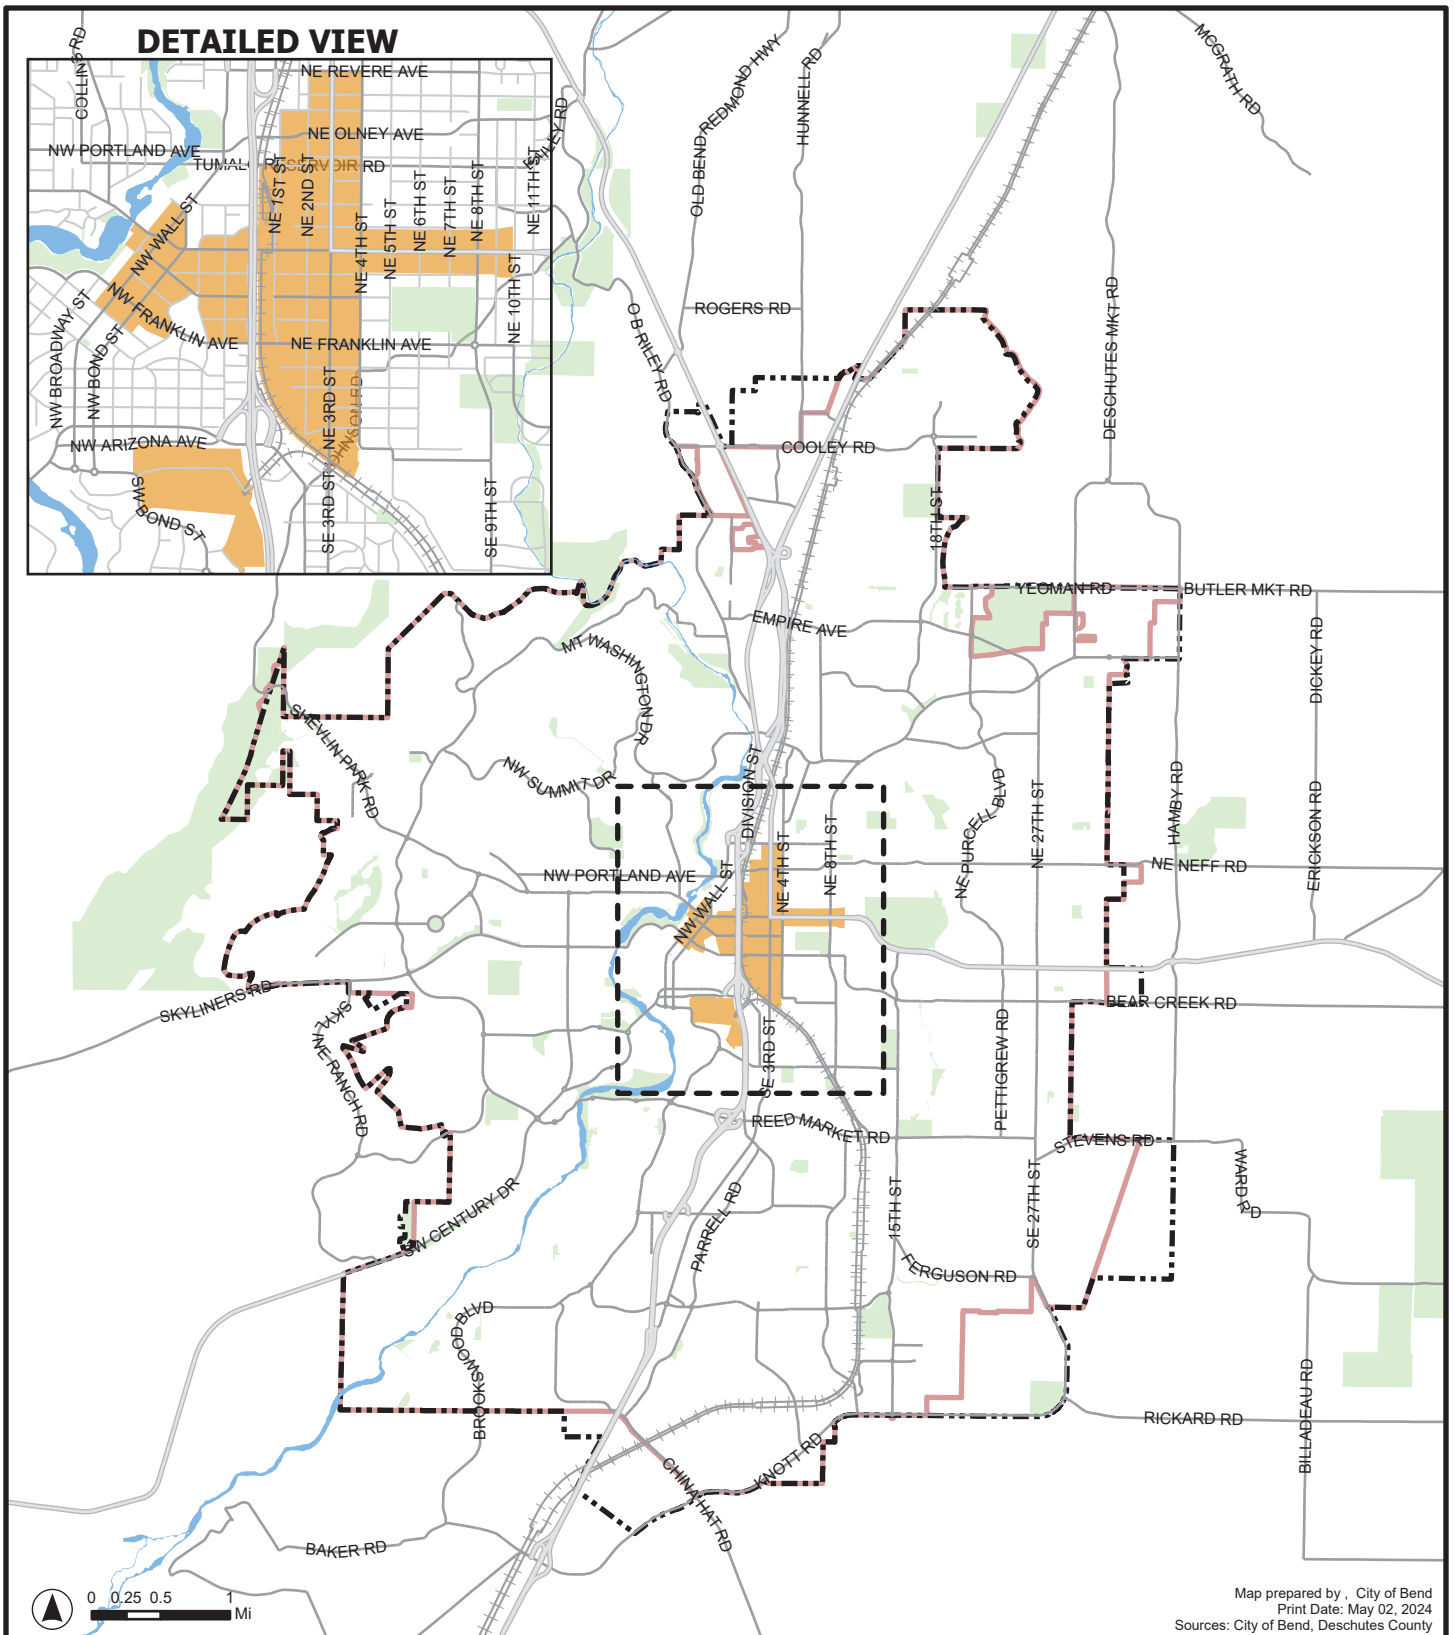

Category^a	Definition/Example Development Types^a
Convenience Store	A small retail store that sells limited grocery, beverages, coffee, pre-made and some made to order foods, snacks, alcohol, over the counter drugs and toiletries. Some have limited seating.
Furniture Store	A store that sells primarily pre-assembled furniture and carpeting. Some have large showrooms and most of the goods must be ordered for delivery.
Vehicle Sales	New and used automobile and recreational vehicle dealerships may include auto services and parts sales, includes vehicles for sale or lease.
Bank/Financial Institution	A building, with or without a drive-up window, for the custody or exchange of money, and for facilitating the transmission of funds. Walk in and drive through.
Restaurant (Table Service)	An eating and/or drinking establishment (including brewery taproom or winetasting room) that prepares food or beverages on-site and offers accommodation for consuming the food or beverage on the premises. A customer commonly waits to be seated, is served by wait staff, orders from a menu, and pays after the meal. Usually serves breakfast, lunch, and/or dinner; generally, does not have a drive-up window. Fees apply to restaurants that are not incidental to hotels. This category does not apply to a bottle shop that primarily sells closed bottles and is not connected to a brewery or winery unless service includes a kitchen and table service for prepared food.
Quick (Counter) Service Restaurant	Quick food service and a limited menu of items. A customer typically orders off a menu board, pays for food before the food is prepared, and seats themselves. Food is generally served in disposable wrappings or containers and may be consumed inside or outside the restaurant building or food truck. Restaurants in this category may or may not have a drive-up window. This category applies to food truck lots with or without taprooms. Fees apply to restaurants/food trucks that have drive-thru lanes or are not incidental to hotels.
Special Categories	
Public Parks, Private/Public Golf Course, Common Areas	Developed parks owned and operated by public agencies, public and private golf courses. Common area examples include restrooms, picnic table areas and other gathering spaces. Sites may include a variety of recreation amenities, including boating or outdoor swimming facilities, splash pads, sport fields, playgrounds, and picnic facilities. A developed park includes at least one built amenity that provides a park experience beyond open space. Land preserved for natural areas, trails and trailheads are not considered developed parks for SDC purposes and will be excluded from acreage measurements used as the basis for transportation SDCs; irrigation rate may apply to developed or natural areas if irrigated. When a park includes a recreation center, the park and recreation center will be charged as separate uses, with the latter charged the Indoor Fitness & Recreation rate. Water and sewer SDCs for parks will be charged according to the irrigation and park facility categories (e.g., Stand-Alone Restroom and Outdoor Pool).
Community space	Structures for gathering with a Homeowner's Association or access limited to neighborhood residents. Applies to water and sewer SDCs only.
Golf Course Club House	Golf course pro shop or club house. Applies to water and sewer SDCs only.

Category ^a	Definition/Example Development Types ^a
Restroom (Stand-Alone)	Stand-alone public restroom facilities. Applies to water and sewer SDCs only. Separate water SDC does not apply if served by a meter used for irrigation and restroom is incidental to irrigation use.
Outdoor Pool (Public)	Outdoor public pools that are not part of a recreation or fitness center. Applies to water and sewer SDCs only.
Separate Irrigation Space >1/4 acre	Irrigation uses that exceed ¼ acre and that are served by a meter that serves both the irrigation use and other (e.g., indoor) water uses. When other water uses serve buildings that are more than an incidental use (e.g., school or office buildings), the irrigation portion of the SDC will be determined based on the meter size that would be required if the irrigation space were served by a stand-alone meter. Applies to water SDCs only.
Stand-Alone Irrigation	A water meter installed with irrigation as the primary use. May also serve a restroom or other incidental use if irrigation is the principal use. Applies to water SDCs only.
Childcare	Daycare and childcare facilities. Childcare facilities that are incidental to other categories (e.g., Indoor Fitness and Recreation, General Office, etc.) or are within Integrated Retail/Services developments will be charged those other category rates.
Schools K-12	Includes public and private primary and secondary schools (e.g., elementary, junior high, middle school and high school) instructional classrooms, offices, cafeterias, and gymnasiums. For water SDCs, a separate irrigation SDC based on meter size applies for outdoor sports fields and irrigation uses greater than ¼ acre or served by a stand-alone meter.
College/University	Facilities of higher education include two-year, technical, four-year, and graduate-level institutions. Category includes instructional classrooms, offices, cafeterias, and gymnasiums. For water SDCs, a separate irrigation SDC based on meter size applies for outdoor sports fields and irrigation uses greater than ¼ acre or served by a stand-alone meter.
Gas Sales/Service Station	A facility used for the sale of gasoline or service station where the primary business is the fueling of motor vehicles. May include areas for servicing or repairing vehicles. May include minimart and/or carwash. Minimarts without fueling/service positions fall under the Convenience Store rate. Other auto service or repair falls under Integrated and Stand-Alone Retail/Services or Industrial, if part of an industrial building. Water and sewer SDCs assessed per site; transportation SDCs are assessed per fueling/service positions (per ITE definitions). Car washes on the site will be assessed additional water and sewer SDCs based on the type of car wash (see SDC schedule).
Car Wash	Manual operations where the driver parks and washes the vehicle in a stall, or an automated facility for the same purpose will be charged the same for transportation SDCs. Refer to SDC schedule for water and sewer rates for manual vs. automated car washes.
Hotel/Motel/RV Park	Includes hotel/motel and other overnight facilities primarily intended for transient stays. May include on-site restaurants (or food truck pads), drinking place/bar, meeting and banquet rooms or convention facilities as well as swimming pools and fitness. For water and sewer SDCs, applies to RV park spaces with individual water and sewer service connections. If individual spaces do not have sewer hookups, then use RV dump station rate for sewer portion.

Category ^a	Definition/Example Development Types ^a
RV Dump Station (For Park)	Facilities for disposal of black water and gray water from RV holding tanks at RV parks and campgrounds not served by individual services at each space. Applies to sewer SDCs only. Will be assessed based on number of spaces without individual connections.
Sewage Dump Station (Open to Public)	Facilities for disposal of black water and gray water from RV holding tanks at gas stations or other sites. Applies to sewer SDCs only.
Urban Rate	30% reduction in applicable transportation SDC for uses in areas identified on the Urban Rate Area map adopted by City Council in the Fee Resolution. To qualify, the development must be in one of these areas, at least three stories high, the first floor of developments with frontage on arterial, collector, or for developments in the Bend Central District, main streets as identified in BDC Chapter 2.7, must be “commercial ready” as defined in BDC Section 2.7.3245.A. 1., 2., and 3. Rate is not available for development that includes any auto-dependent or auto-oriented uses (as defined in the BDC) or for single-unit or middle housing residential uses. Multi-unit residential does qualify if the other criteria are met.

^a Where there is a conflict between definitions, definitions in Bend Development Code control.

Urban Rate Area Map - Exhibit C

URBAN RATE AREA

MAY 2024

- Urban Rate Area*

NOTE: See accompanying category definitions in Exhibit B. See individual SDC methodology reports for additional clarifying information. Individual SDC Reports have different footnotes due to variations by system.

^a"Wet" industries required to prepare individual water and sewer analysis.

^bMedical-Dental-Vet offices w/in hospital campus pay Hospital transportation rate. Transportation rate for Medical-Dental-Vet offices in the Medical Overlay District is reduced by 24% (based on ITE 720 w/in or near hospital campus rate).

^cIf stored products require water for growing, cleaning, etc., Stand-Alone Retail/Services rates for water and sewer apply.

^dIndividual category rate applies even if part of an Integrated Retail/Services development. For Quick Service Restaurants, only those with a drive-thru will be charged individual category rates, even if included in an integrated development.

Irrigation SDC Schedule (Stand-Alone or when irrigated area >1/4 acre)

Meter Size (Inches)	Units	Water \$/Unit
1	Meter	\$17,550 \$17,954
1.5	Meter	\$39,267 \$40,170
2	Meter	\$64,752 \$66,241
3 and Larger	GPD water use	\$10.14 \$10.37

	Units	Water \$/Unit	Sewer \$/Unit
Industrial/Manufacturing	GPD water use	\$10.14 \$10.37	\$29.45 \$30.13

Transportation SDC - Cost Per Trip

\$10,021	\$10,251
---------------------	-----------------

SDC Category Definitions and Examples-Exhibit E

Table B-1. SDC Category Definitions and Examples

Category^a	Definition/Example Development Types^a
<i>Residential Categories</i>	
Single Unit & Middle Housing	Single unit housing with up to 4 units on one lot or parcel. Includes middle housing (duplexes, triplexes, quadplexes, cottage developments up to 4 units on one lot or parcel, and townhouses) and up to three manufactured homes on a single lot. Units can be attached or detached. Applies to residential units in a mixed-use development with up to 4 units.
Multi-Unit Housing	Includes multi-unit housing that is part of a mixed-use development.
Housing >4 units	Five or more dwellings on an individual lot or parcel (e.g., multi-plexes, apartments, condominiums, etc.). Units can be attached or detached.
Manufactured Dwelling Park	Manufactured dwelling park as defined in Bend Development Code (four or more pads for manufactured dwellings located on a lot, tract, or parcel of land under the same ownership). Manufactured dwelling means a residential trailer, mobile home, or manufactured home; see BDC definition.
Micro-Units/Single Occupancy	Generally, consists of one room used for living and sleeping purposes and includes permanent provisions for sanitation but does not include a kitchen. See BDC definitions.
Dormitories	On-campus housing for students.
Sr. Housing	Age-restricted (55+) attached housing without on-site care facilities.
Other Housing	
Continuing Care Facility	Nursing home, residential care facility, adult family housing, hospice care, assisted living, rest home, convalescent home, sobering center with overnight beds, congregate or continuing care facility.
Accessory Dwelling Unit	A small, secondary dwelling unit on a lot or parcel with a single-unit dwelling unit as a primary use.

Category ^a	Definition/Example Development Types ^a
Nonresidential Category	
Standard Categories	
Industrial / Manufacturing	May include a mix of manufacturing, service, office, research, lab, and warehouse functions. May also include specialty trade contractors and machine and auto repair that are part of industrial buildings. Many produce goods by assembling other products, such as assembly of computers or other electronics. May be used for research and development projects that are a combination office and lab, where lab is the predominant (>50%) square footage of the combined development area. For purpose of water and sewer SDCs, excludes 'Wet' Industries that use water in the production process (see separate SDC category and definition).
"Wet" Industrial	Users in this category use water during the production process for either creating their products or cooling equipment. Industrial water may also be used for fabricating, processing, washing, diluting, cooling, or transporting a product. Water is also used by industries producing chemicals, food, and beverage products. Breweries, distilleries, and data centers are examples of these types of customers. Water and sewer use and applicable SDC shall be determined through a water and sewer analysis, as defined in the City Code.
Warehouse / Storage / Dist. Center	Warehouse, storage, and high cube fulfillment centers. Self or mini storage. Stand-Alone Retail/Services water and sewer rates apply if stored products require water for growing, cleaning, etc.
Movie Theater	Audience seating, with one or more screens, and a lobby and refreshment stand.
Indoor Fitness & Recreation	Public or privately owned fitness or recreation facilities that may include indoor/outdoor pools, saunas, gyms, classes, courts or specialized passive or active recreation facilities. Features space for exercise, sports, and recreation, as well as a broader range of services such as eating/drinking, preschools/day care and meeting rooms.
Church, Religious Organization	Worship facilities may include assembly hall or sanctuary, meeting rooms, classrooms, and occasionally dining facilities.
Hospital	Buildings on a shared campus with medical, surgical diagnosis, treatment, imaging, labs, and other services, and provide overnight beds for persons under the care of doctors and nurses.
Medical - Dental - Vet Office	A facility that provides diagnoses and outpatient care on a routine basis but does not provide prolonged in-house medical/surgical care. May be operated by either a single private physician/dentist/practitioner or a group. Includes vet offices as well as chiropractic and other treatment modalities, mental health professionals, etc. May be connected to other uses (except hospitals) or stand-alone. If this use is part of an Integrated Retail/Services development, this individual land use rate only applies if medical/dental/vet office is the principal use. If located within a hospital campus, the Hospital Rate for transportation applies. If located in the Medical Overlay District, as defined in BDC Chapter 2.7 Article IV, Medical Overlay District SDC is reduced by 24% based on ITE 720 w/in or near a hospital campus for transportation.

Category ^a	Definition/Example Development Types ^a
General Office	An administrative office building houses one or more tenants and is the location where affairs of a business, commercial or industrial organization, professional person or firm are conducted. The building or buildings may be limited to one tenant, either the owner or lessee, or contain a mixture of tenants including professional services, insurance companies, investment brokers, and company headquarters. May include onsite daycare or food service facilities provided for tenants. Also includes libraries and research & development projects that may be a combination of office and research lab facilities, when the lab is secondary use (i.e., <50% of building square feet). If part of Integrated Retail/Services development, individual land use rate only applies if the primary use.
Medical Overlay District	The Medical Overlay District as defined in BDC Chapter 2.7 Article IV. Transportation SDCs in this District charged based on ITE 720 w/in or near hospital campus rate.
Medical Dental Office w/in Hospital Campus	Hospital transportation rate for Medical-Dental office located within a hospital campus.
Stand-Alone Retail/Services with >50% Floor Area Warehouse/Storage	Stand-Alone retail uses with floor area greater than 50% for warehouse/storage. If stored products require water for growing, cleaning, etc., Stand-Alone Retail/Services rates for water and sewer apply.
Stand-Alone Retail/Services	Includes general merchandise and services categories not otherwise listed in the SDC schedule. Transportation rate is based on size of development as listed in the SDC Schedule. Stand alone rate for sewer and water applies to Stand-alone Retail/Services that are not integrated (see "integrated" definition below)
Integrated Retail/Services	An integrated retail/services development is typically a shopping center that is planned or developed as a unit with features such as shared parking or access, like . Includes single developments with multiple storefronts or office spaces, strip malls, mixed use buildings with residential and commercial spaces, etc. These developments typically include retail stores, food and beverage, entertainment facilities, service providers, and common areas. Water and sewer are assessed at the Integrated Retail/Services rate. Integrated developments are charged the Integrated rate for water and sewer, except as described in the following sentences. Transportation is assessed at the Retail/Services rate and is based on the total square footage of all buildings in the development rate is based on the square footage of the development, using the Retail/Services rate. The following uses will be charged transportation, water, and sewer rates based on their individual category rates even if included in an integrated development: Hotels, Parks, Super Stores, Supermarkets, Quick-Service Restaurants w/drive-thru, Car Washes, Gas Sales/Service Stations, Industrial/Manufacturing, 'Wet' Industrial, Warehouse/Storage/Distribution Centers, and Car Vehicle Sales. Where an integrated development has a principal use (as defined in the BDC), the water, sewer & transportation rate of the category for that use will apply to the square footage of the principal use, and the integrated rate for water and sewer will apply to the square footage of all uses other than the primary use; transportation rate will be based on the square footage of all uses other than the primary use. For a building that has is mixed commercial and residential uses, the integrated rate applies to the commercial square footage and the applicable residential rate, based on number of units, applies to residential space.

Category ^a	Definition/Example Development Types ^a
Super Store (with or w/out membership & discount)	Store includes a variety of services or departments including a full-service grocery department; has centralized cashiers and may have garden center or pharmacy. May or may not be part of shopping center or require membership. Examples include Costco, Walmart, Fred Meyer, etc. Additional retail pads within the development will be charged at the Integrated Retail/Services rate. When a development includes a super store and a gas station and/or service station, the super store and gas station/service station will be charged as separate uses, with the latter charged the gas sales/service station rate.
Supermarket	A store that sells an assortment of food, beverage, household products and other related items. Some include limited banks, bakeries, dry cleaning, and floral services. This category also includes discount grocery stores, but not "super" stores. When a development includes a supermarket and a gas station and/or service station, the supermarket and gas station/service station will be charged as separate uses, with the latter charged the gas sales/service station rate.
Convenience Store	A small retail store that sells limited grocery, beverages, coffee, pre-made and some made to order foods, snacks, alcohol, over the counter drugs and toiletries. Some have limited seating.
Furniture Store	A store that sells primarily pre-assembled furniture and carpeting. Some have large showrooms and most of the goods must be ordered for delivery.
Car Vehicle Sales	New and used automobile and recreational vehicle dealerships may include auto services and parts sales, includes vehicles for sale or lease.
Bank/Financial Institution	A building, with or without a drive-up window, for the custody or exchange of money, and for facilitating the transmission of funds. Walk in and drive through. If part of integrated retail/services development, individual land use rate only applies if the principal use.
Restaurant (Table Service)	An eating and/or drinking establishment (including brewery taproom or winetasting room) that prepares food or beverages on-site and offers accommodation for consuming the food or beverage on the premises. A customer commonly waits to be seated, is served by wait staff, orders from a menu, and pays after the meal. Usually serves breakfast, lunch, and/or dinner; generally, does not have a drive-up window. Fees apply to restaurants that are not incidental to shopping centers or hotels. This category does not apply to a bottle shop that primarily sells closed bottles and is not connected to a brewery or winery unless service includes a kitchen and table service for prepared food.
Quick (Counter) Service Restaurant	Quick food service and a limited menu of items. A customer typically orders off a menu board, pays for food before the food is prepared, and seats themselves. Food is generally served in disposable wrappings or containers and may be consumed inside or outside the restaurant building or food truck. Restaurants in this category may or may not have a drive-up window. This category applies to food truck lots with or without taprooms. Fees apply to restaurants/food trucks that have drive-thru lanes or are not incidental to shopping centers or hotels.

Category ^a	Definition/Example Development Types ^a
Special Categories	
Public Parks, Private/Public Golf Course, Common Areas	Developed parks owned and operated by public agencies, public and private golf courses. Common area examples include restrooms, picnic table areas and other gathering spaces. Sites may include a variety of recreation amenities, including boating or outdoor swimming facilities, splash pads, sport fields, playgrounds, and picnic facilities. A developed park includes at least one built amenity that provides a park experience beyond open space. Land preserved for natural areas, trails and trailheads are not considered developed parks for SDC purposes and will be excluded from acreage measurements used as the basis for transportation SDCs; irrigation rate may apply to developed or natural areas if irrigated. When a park includes a recreation center, the park and recreation center will be charged as separate uses, with the latter charged the Indoor Fitness & Recreation rate. Water and sewer SDCs for parks will be charged according to the irrigation and park facility categories (e.g., Stand-Alone Restroom and Outdoor Pool).
Community space	Structures for gathering with a Homeowner's Association or access limited to neighborhood residents. Applies to water and sewer SDCs only.
Golf Course Club House	Golf course pro shop or club house. Applies to water and sewer SDCs only.
Restroom (Stand-Alone)	Stand-alone public restroom facilities. Applies to water and sewer SDCs only. Separate water SDC does not apply if served by a meter used for irrigation and restroom is incidental to irrigation use.
Outdoor Pool (Public)	Outdoor public pools that are not part of an a a recreation or fitness center. Applies to water and sewer SDCs only.
Separate Irrigation Space >1/4 acre	Irrigation uses that exceed ¼ acre and that are served by a meter that serves both the irrigation use and other (e.g., indoor) water uses. When other water uses serve buildings that are more than an incidental use (e.g., school or office buildings), the irrigation portion of the SDC will be determined based on the meter size that would be required if the irrigation space were served by a stand-alone meter. Applies to water SDCs only.
Stand-Alone Irrigation	A water meter installed with irrigation as the primary use. May also serve a restroom or other incidental use if irrigation is the principal use. Applies to water SDCs only.
Childcare	Daycare and childcare facilities. Childcare facilities that are incidental to other categories (e.g., Indoor Fitness and Recreation, General Office, etc.) or are within Integrated Retail/Services developments and not the primary use will be charged those other category rates.
Schools K-12	Includes public and private primary and secondary schools (e.g., elementary, junior high, middle school and high school) instructional classrooms, offices, cafeterias, and gymnasiums. For water SDCs, a separate irrigation SDC based on meter size applies for outdoor sports fields and irrigation uses greater than ¼ acre or served by a stand-alone meter.
College/University	Facilities of higher education include two-year, technical, four-year, and graduate-level institutions. Category includes instructional classrooms, offices, cafeterias, and gymnasiums. For water SDCs, a separate irrigation SDC based on meter size applies for outdoor sports fields and irrigation uses greater than ¼ acre or served by a stand-alone meter.

Category ^a	Definition/Example Development Types ^a
Gas Sales/Service Station	A facility used for the sale of gasoline or service station where the primary business is the fueling of motor vehicles. that provides short duration, high turnover auto services such as oil changes, etc. May include areas for servicing or repairing vehicles. May include minimart and/or carwash. Minimarts without fueling/service positions fall under the Convenience Store rate. Other auto service or repair falls under Integrated and Stand-Alone Retail/Services or Industrial, if part of an industrial building. Water and sewer SDCs assessed per site; transportation SDCs are assessed per fueling/service positions (per ITE definitions). Car washes on the site will be assessed additional water and sewer SDCs based on the type of car wash (see SDC schedule).
Car Wash	Manual operations where the driver parks and washes the vehicle in a stall, or an automated facility for the same purpose will be charged the same for transportation SDCs. Refer to SDC schedule for water and sewer rates for manual vs. automated car washes.
Hotel/Motel/RV Park	Includes hotel/motel and other overnight facilities primarily intended for transient stays. May include on-site restaurants (or food truck pads), drinking place/bar, meeting and banquet rooms or convention facilities as well as swimming pools and fitness. For water and sewer SDCs, applies to RV park spaces with individual water and sewer service connections. If individual spaces do not have sewer hookups, then use RV dump station rate for sewer portion.
RV Dump Station (For Park)	Facilities for disposal of black water and gray water from RV holding tanks at RV parks and campgrounds not served by individual services at each space. Applies to sewer SDCs only. Will be assessed based on number of spaces without individual connections.
Sewage Dump Station (Open to Public)	Facilities for disposal of black water and gray water from RV holding tanks at gas stations or other sites. Applies to sewer SDCs only.
Urban Rate	30% reduction in applicable transportation SDC for uses in areas identified on the Urban Rate Area map adopted by City Council in the Fee Resolution. To qualify, the development must be in one of these areas, at least three stories high, the first floor of developments with frontage on arterial, collector, or for developments in the Bend Central District, main streets as identified in BDC Chapter 2.7, must be “commercial ready” as defined in BDC Section 2.7.3245.A. 1., 2., and 3. Rate is not available for development that includes any auto-dependent or auto-oriented uses (as defined in the BDC) or for single-unit or middle housing residential uses. Multi-unit residential does qualify if the other criteria are met.

^a Where there is a conflict between definitions, definitions in Bend Development Code control.
