**Subject:** Speeding problems on Cessna Drive.

Hi Karen,

My name is Ryan Goldstein. I'm a teacher at Pilot Butte Middle School, a long time Bend Resident (40 years!), and a parent of two children. I live on Cessna Drive in Bend. To get to the chase, our street is really dangerous. Last year a group of concerned neighbors spoke up and the city installed a speed radar. The results, according to the city were "normal". Unfortunately the speeding is out of control and it will only be a matter of time before someone is going to get hurt. Last year I asked what could be done about the problem. I was told that the city has no funds to help us out. As a neighborhood, we have quite a few families who are worried that their children are in danger every day as they walk to and from school, friend's houses, or just to play outside, and there is a real safety issue here. I want to continue to work with the city to find an answer. I think, as do most of our neighbors, that our street is a perfect candidate for speed bumps. Thanks for working with me on this. I, along with my neighbors and their kids, could really use your support.

Sincerely,

Ryan Goldstein
