## Infrastructure Advisory Committee (IAC)

---

### **November 16, 2011 IAC recommendation regarding the Stormwater Ordinance:**

The IAC recommends that the Council approve the Stormwater Ordinance as presented.

The IAC expressed concern about certain provisions of the Stormwater Ordinance relating to development projects that present distinct probabilities of conflicts during the implementation of the Stormwater Ordinance. The IAC recommends that staff be directed to establish a process that would assure such conflicts would be promptly addressed, recommendations be promptly developed and presented for public comment and that the recommendations and public comment be presented for review by the IAC to make recommendations to Council regarding adoption of such recommendations.
