

IAC COMMITTEE 2011

Names	Email	Biography
Andy High	andyh@coba.org	Central Oregon Builders Assoc., Vice Pres. for Government Affairs. He has served on several city committees such as stormwater, and the water, wastewater capital improvement projects committee. Mr. High has an extensive background in building issues.
Frank Turek	Waldo1ft@msn.com	Geologist (retired). Mr. Turek has more than thirty years of geologic, groundwater and surface water resources, wastewater, reclaimed water reuse, land development and environmental project experience. Mr. Turek has completed projects for municipal governments, private clients, state agencies and federal bureaus.
James Gattey	gattey@bendbroadband.com	Attorney (retired). Practice law for forty-five years specializing in representing public employees interests in proceedings before public bodies at the local, county, state and federal levels. Served eight years as a member of the Miramar Water Treatment Upgrade and Expansion Project community advisory group for the City of San Diego.
Nancy Loveland	luckypat242@yahoo.com	Retired. Served as Old Farm District Neighborhood Association Land Use chair where she focused on Bend's Infrastructure needs. Ms Loveland was a member of the Street Maintenance Funding Focus Group in 2009
William Roats	casey@roatswater.com	Vice Pres. of Roats Water System. Mr. Roats has background in infrastructure, maintenance, and general oversight of utilities. Served on the National FFA Officer nomination committee.
Ray Auerbach	auerbach@bendbroadband.com	Civil Engineer. Recipient of the George W. Fuller Award. Recently retired from the Paradise Irrigation District where he served as the District Manager. Thirty-eight years experience in water resources finance, administration, engineering, operations and intergovernmental relations.
Tom Stutheit	tstutheit@bendbroadband.com	Retired Boeing tool engineer. In his career he designed assembly tools/equipment to build the F-22 Fighter Plane. Would like to use his common sense approach to approach matters relating to the City's infrastructure.
