## UPCOMING AND CURRENT PROJECT HIGHLIGHTS:

### ***Downtown Parking District:***

- Establishing regular data collection to identify parking utilization
- Review future development projects to identify and forecast future parking demand
- Identify paid parking options that could have positive impact on parking management
- A timeline for implementing paid parking in downtown Bend has not been established

### ***Parking Guidance***

- As part of the move to paid parking and in support of the climate action plan we are evaluating the use of parking guidance to reduce VMT (Vehicle Miles Traveled) and use our parking system more efficiently

### ***Parking Code Reform***

- We are working on reforming City of Bend parking code and policies.

### ***Bike Share***

- We are actively working to bring back a bike share program this year
- Program will use e-bikes

## UPCOMING PILOT PROGRAMS

### *Commercial Loading Zones*

- We are partnering with Passport Parking on a Commercial Loading Zone pilot program to gather data and info on utilization and feasibility of a commercial loading zone program
- Will help with evaluating future use and potential for Brooks Alley

## Parking is part of many conversations.

- Parking districts / Parking minimums / Paid Parking / Parking Rules
