Road construction and maintenance is underway: slow down, be safe

June is here, warm weather has arrived and the Bend Public Works Department will be performing high profile maintenance activities on the City's roadways. Street maintenance is critical to prevent roadway degradation and to maintain safety on our roads.

When approaching the work crews, please remain patient. Please follow the directions of flaggers and work zone signs. Cutting in front of or between maintenance vehicles or speeding can be dangerous to you, other drivers and to maintenance workers.

We apologize for any inconvenience or delay these maintenance activities may cause you. Please remember that the safety of work crews performing jobs in the right-of-way is most important, and that these functions are done to improve the safety of the public.
