Subject: Feedback for City of Bend

You have received this feedback from Amy Sabbadini <asabbadini@earthlink.net> for the following page:

<https://www.bendoregon.gov/city-projects/transportation-system-plan>

I'm concerned about how dangerous it is to bike in town. We need bike paths that go east west and aren't a tiny shoulder of road. One of my students was hit by a truck while commuting and broke his pelvis. I also think a cross walk at Third St where the canal crosses just north of Fred Meyer is in order. Lastly our schools don't have activities in the afternoons which means only kids whose parents can help with transportation can stay after school to play sports or do choir or get help from teachers.
