Hi! I'm not sure who I should be addressing this message to, but thought I would start here. It is clear that we will be having more traffic and congestion on Hwy. 97 and Cooley Road with the addition of stores and restaurants across from Target/Olive Garden, etc. to Ulta/coffee shops and restaurants.

I was proposing a walking/bike bridge across highway 97 to promote people leaving their cars on one side of the road and walking to other areas to shop or eat. I wasn't sure who to address this idea to. Thanks for the consideration! Judy Stoltz
