Subject: Re: Potential Roundabout at Century Drive and Skyline Ranch Road

Hi Karen,

Please add our comments to what is given to the advisory committee, regarding the above proposed roundabout.

We have lived on Bachelor View Road (BVR) since 1999. Over the years, traffic has dramatically increased on Century Drive. Also there are new developments such as Tethrow and now the new subdivision the Lodges. This has lead to some very scary traffic incidents at this intersection. Things become worse during the winter, where the road is narrowed from snow, is icy , and skier traffic is increased. Out of town traffic does not respect the locals turning . Coming from Mt Bachelor, and turning right onto BVR is always a situation of hoping to not be rear ended by a car going 60-70 mph, that may be behind another car and not see me until the last second. Acting as a moving road block, as your engineer told us to be in the past, really does not provide safety to my passengers.

So please prioritize a roundabout at the above intersection before someone is either seriously injured, or even killed in a preventable MVA.

Thank you,

Ambrose and Mary Su
