

FAQ #2 – Email submissions

Q. If no projects are awarded these funds for infrastructure, what would happen to the funds? Would they be re-released as general (not infrastructure specific) CDBG funds?

A. Because of the federal funding uncertainty, it is uncertain what will happen if the Affordable Housing Advisory Committee does not award infrastructure funds to the applicants. While Congress is on track to fund CDBG at the same level as last year - assuming the President approves that funding – it is unknown whether our City Council will accept the funds with conditions based on Executive Orders.

Q. Are there plans for the City to put out an RFP for Affordable Housing Fee Funds in 2026?

A. City staff estimate a release a Notice of Funding Opportunity for both Affordable Housing Fund and Commercial and Industrial Construction Tax resources in April 2026.
