

WELCOME TO THE 2027 NSSP DESIGN OPEN HOUSE

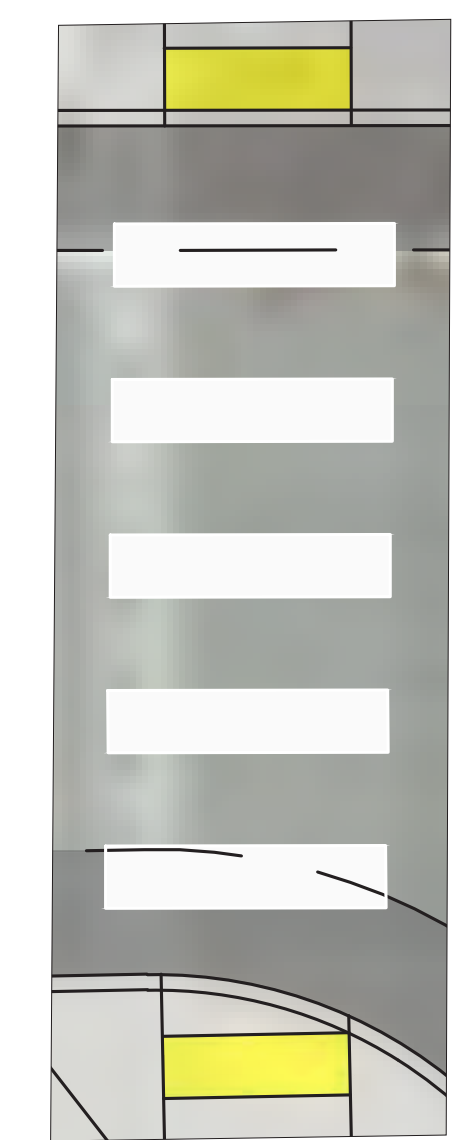

Listed below are descriptions of each of the 2027 Neighborhood Street Safety Program sites and the work anticipated at each site. The following pages include conceptual plans for each site.

- Boyd – The City will be updating and improving the existing crossings at the intersection of NE Sierra Drive and NE Boyd Acres Road, and NE Town Drive and NE Boyd Acres Road to facilitate safer crossings of NE Boyd Acres Road
- Blakely – The City will be implementing traffic calming along Blakely Road from Powers Road to Chamberlain Street. Improvements to include speed humps and sidewalk infill at select locations
- Discovery Park – the City will be building a raised crossing at the intersection of NW Discovery Park Way and NW High Lakes Loop
- Regency – The city will be updating and improving the crossing of Regency Street and NW Mt Washington Drive. Improvements will include a Rectangular Rapid Flashing Beacon.
- Tucson – The City will be implementing traffic calming along Tucson Way from Neff Road to Conners Ave. Improvements to include speed humps and sidewalk infill.
